

Data at a glance

Rotor:

Core assembly [kg] max. 16
weight

Flange diameter [mm] 300

Turbine diameter [mm] max. 130

Compressor wheel [mm] max. 153
diameter

Smallest [gmm] 0,05
achievable

residual
unbalance

Machine data:

Size: Width, depth, [mm] 1783 x 730 x
height 1400

Overall weight [kg] 950

Power supply [V] 230 V \pm 10%, 50
Hz

Rotor drive by compressed air
(6-10 bar / 1.5"
connection)

Noise level [dB] less than 67 -
measured at
168,000 rpm with
a master core
assembly type
GT15

Protective cover To ISO 7475
Class D

Painting 2 colour: RAL7035
(light grey),
RAL7024 (graphite
grey))

Measuring unit CAB

Options: 950SmartTouch

Core assembly -
specific adapter
rings
